LNG *PORTABLE* STATION

Gas Solutions

PORTABLE SOLUTION

PURCHASE OR LEASE OPTION

Not all needs of our customers require long term infrastructures or service providing, so we created solutions that meet your day-to-day needs that can provide short planned solutions and control your investments.

MAIN CHARACTERISTICS

- Refuelling of LNG vehicles through pressure differential - NO LNG pump;
- Prepared to fill at least 10 to 20 trucks per day;
- Same refuelling performance as a fixed station;
- No need of 3 phase electricity supply;
- No civil works needed;
- Easy/Fast installation
